

St. Louis Community College

2014 Annual Safety Report

October 1, 2014

Established in 1962, St. Louis Community College is the largest community college district in Missouri and one of the largest in the United States. STLCC has four main campuses – Florissant Valley, Forest Park, Meramec and Wildwood – that annually serve more than 80,000 students through credit courses, continuing education, and workforce development programs.

St. Louis Community College is committed to non-discrimination and equal opportunities in its admissions, educational programs, activities, and employment regardless of race, color, creed, religion, sex, sexual orientation, national origin, ancestry, age, disability, genetic information, or status as disabled or a Vietnam-era veteran, and shall take action necessary to ensure non-discrimination.

For more information about STLCC, visit www.stlcc.edu.

2014 Annual Security Report

The Jeanne Clery Disclosure Act ("**Clery Act**") requires most colleges and universities, including St. Louis Community College ("**STLCC**" or "**College**"), to publish an annual report on safety and security issues. Students, faculty, and staff will receive an e-mail notification providing a link to where the report is published on the College website. A hard copy of the report is also available upon request to the Public Information and Marketing department at the Cosand Center, or at any of the main campuses and the Campus Police departments. This report contains statistics for the previous three years of reported crimes that occurred on property owned or controlled by STLCC and on public property immediately adjacent to and accessible from the campus. The report also includes College policies concerning campus safety and security. The College currently has no specific policy relating to the preparation of this report. As indicated by the statistics for all four college campuses, St. Louis Community College is an exceptionally safe environment for both students and employees.

As a result of an investigation conducted by an outside law firm which presented its findings and recommendations on August 15, 2013, a number of recommendations have been offered to the College for evaluation as it relates to its police and security services. While no changes at this time have occurred to Board Policy or Administrative Procedure as a result of this report, the College is moving forward with several actions to address the issues raised. First, the College has tightened its protocols related to timely warnings and public safety alerts. Second, the Board of Trustees directed the College to prepare and post a Request for Information for entities regarding the performance of an Operational and Liability Assessment of the College's police practices and operations. This assessment will serve as the map for an advisory council to be made up of individuals from law enforcement and higher education law enforcement in and around the St. Louis metropolitan area to advise the College on areas that need to be addressed in the near term related to operations of the Campus Police departments. Last, the College has applied to have its Campus Police departments accredited by the International Association of College Law Enforcement Agencies ("**IACLEA**"). This will be a more long-term process of about two to three years, in which the College will be required to bring its policies and training requirements in line with the 203 standards as established by IACLEA.

These actions and others are just part of the College's commitment to making its campuses an even safer place to be for our students, faculty and staff.

PROCEDURES FOR REPORTING OF CRIMES OR OTHER EMERGENCIES

Timely Warnings

In the event a situation arises, either on- or off-campus, that, in the judgment of the campus president or Campus Police chief, constitutes an on-going or continuing threat, a campus-wide “timely warning” will be issued. Timely warnings will be issued by the Public Information and Marketing Department. If the warning is to be made to more than one campus, then the Chancellor, the District Chief of Police, and the District Public Information and Marketing Director will make the determination. These determinations will be made on a case-by-case basis after consideration of the available facts. Factors considered in determining whether an alert will be issued include: whether there is a serious ongoing or continuing threat to students or employees; whether an alert would compromise law enforcement efforts; and whether the College has reliable information which, if disseminated, could help prevent similar crimes.

A timely warning will be considered whenever a Campus Police authority receives a report that a crime in one of the following classifications has occurred on or near campus, or when a local law enforcement agency notifies the College that a crime in one of these classifications has occurred near campus or off campus in an area proximate to College-owned and managed property: criminal homicide, sex offenses, robbery, aggravated assault, burglary, motor vehicle theft and arson. Depending upon other circumstances, other crimes may also trigger the consideration of a timely warning. Timely warnings regarding the occurrence of crimes occurring at or near any College location will be disseminated to members of the College community.

Anyone with information that may warrant a timely warning should contact any of the designated campus officials (including but not limited to campus Presidents, Vice-Presidents/Directors of Student Affairs, Academic Deans and other officials having significant responsibility for student and College activities) or Campus Police or security at the numbers below:

- **BRDG Park** - 314-737-4600 (Creve Coeur Police Department)
- **Center for Workforce Innovation** - 314-513-4300
- **Corporate College** - 314-539-5777
- **Cosand Center** - 314-539-5199 (Security Desk)
- **Florissant Valley** - 314-513-4300
- **Forest Park** - 314-644-9700
- **Meramec** - 314-984-7667
- **South County Education and University Center** - 314-984-7200 (Front Desk)
- **Wildwood** - 636-422-2044
- **William J. Harrison Education Center** - 314-763-6100

Timely warnings will be issued to the campus community or, where appropriate, to those members of the campus community residing in the area subject to the ongoing threat, through the college's email notification system, text messages, postings on the STLCC website, physical postings on doors and bulletin boards, and/or other notification methods as deemed appropriate, including emergency siren and intercom systems.

Annual Disclosure of Crime Statistics

The College reports and publishes crime statistics for its campuses showing the three most recent calendar years' statistics as directed by the Clery Act so that students, prospective students, as well as employees may have this information available to them. In July, 2012, the College implemented an electronic incident reporting system that allows for better tracking of incidents, the creation of an electronic daily crime log, and improved sharing of information among the Campus Police departments. Each Campus Police department tracks and reports the crime statistics for its campus, related College locations under the campus department's direction, and incidents occurring outside and near the campus as recorded by the appropriate local law enforcement agency. The protocol for tracking statistics for the Clery Act is that each Campus Police chief, or his/her lieutenant, will periodically review the incident reports and then categorize each incident pursuant to the Clery Act guidelines. Upon completion of each review, the information is uploaded and the crime statistic data is updated. Additionally, each Campus Police department contacts the appropriate local law enforcement agency periodically to obtain the relevant information from the local law enforcement agency to be published in the campus' crime statistics. These statistics can be found using a link to each campus located at the bottom of each page of the College's website at www.stlcc.edu.

Campus crime, arrest and referral statistics include those reported to the Campus Police, designated campus officials and local law enforcement agencies. The statistics for each campus are listed below.

Reporting a Crime

To report a crime, if it is an emergency, you can call 9-1-1. On the three large campuses, Florissant Valley, Forest Park and Meramec, there are emergency call boxes (bright red boxes with blue lights on top) to use to contact the police dispatcher in case of an emergency. The locations of these call boxes can be found at the Campus Police web page for each campus. A link to the Campus Police web page is located at the bottom of each page of the College's website, www.stlcc.edu. All reports concerning criminal activity, violations of College policy or other emergency situations will be investigated thoroughly and promptly. The College has a written policy providing for confidential reporting of sexual offenses and misconduct, but does not have a written policy allowing for such reporting for other offenses. You may always report an emergency or any criminal or suspicious activity to the following phone numbers, as well as at any Campus Police department.

- **BRDG Park** - 314-737-4600 (Creve Coeur Police Department)
- **Center for Workforce Innovation** - 314-513-4300
- **Corporate College** - 314-539-5777
- **Cosand Center** - 314-539-5199 (Security Desk)
- **Florissant Valley** - 314-513-4300
- **Forest Park** - 314-644-9700
- **Meramec** - 314-984-7667
- **South County Education and University Center** - 314-984-7200 (Front Desk)
- **Wildwood** - 636-422-2044
- **William J. Harrison Education Center** - 314-763-6100

Emergency Response and Evacuation Procedures

The College has an emergency operations policy for district-wide emergency situations as well as for each campus. The District Emergency Management Team (**“EMT”**) consists of:

- Chancellor
- Vice-Chancellor of Academic Affairs
- Vice Chancellor of Student Affairs
- Vice-Chancellor for Finance and Administration
- Associate Vice-Chancellor for Technology and Educational Support Services
- Associate Vice-Chancellor for Workforce Solutions Group
- Associate Vice-Chancellor for Human Resources
- Director of Public Safety and Emergency Preparedness
- Director of Public Information and Marketing
- General Counsel/Chief Legal Officer

The Chancellor, or his/her designee, is responsible for activating the District EMT when appropriate, and will exercise control over the emergency operation and provide guidance on matters of basic policy and decision-making authority. The District Director of Public Information and Marketing will direct release of information to the media. The Chancellor, in coordination with the District Director of Public Information and Marketing and General Counsel, will determine who should be notified of the event and what form(s) of media will be used to provide the notification.

The EMT members for each campus are:

- Campus President
- Vice-President of Academic Affairs
- Director of Public Safety and Emergency Preparedness
- Campus Police Chief
- Vice-President/Director of Student Affairs
- Campus Technology and Employee Support Services representative

- Coordinator, Student Enrollment and Disability Support Services
- Manager of Physical Facilities
- Coordinator, Public Information & Marketing

The Campus President, or his/her designee, is responsible for activating the EMT when appropriate and will exercise control over the emergency operation and provide guidance on matters of basic policy and decision-making authority. The campus coordinator of public information and marketing will direct release of information to the media as approved by the District Director of Public Information and Marketing. The Campus President, in coordination with the coordinator, campus Public Information and Marketing, will determine who should be notified of the event and what form(s) of media will be used to provide the notification.

The College publishes an Emergency Response Guide for each campus that is located on the Campus Police webpage. This guide is also available in hard copy and is provided to all employees and students. A link to the Campus Police webpage for each campus is located at the bottom of each webpage at www.stlcc.edu. Additionally, an Emergency Procedures flip chart (“ACT NOW”), customized for each location, is posted in each office, classroom and indoor public areas in all buildings owned or leased by the College, and sets out evacuation procedures to be utilized for that particular facility. It also contains the four-digit telephone extensions to notify the appropriate party of the emergency event that is occurring.

The members of the EMT, district or campus, have access to the appropriate Crisis Management Plan that includes operational guidelines and leadership command structure for the institution in the event of an emergency. Training exercises will be held at least once a year under the direction of the District Police Chief and the Campus Police Chief. These exercises will consist of training, tabletop exercises, full-scale exercises, drills, tests of the text messaging system, email notification system, the intercom system, and emergency siren system, where applicable. The EMT members and Campus Police will participate along with appropriate first responder representatives. If required, all College emergency personnel and occupants of the affected building(s) are to participate fully in these exercises and drills.

PROMPT AND CONFIDENTIAL REPORTING OF CRIMES

The College undertakes efforts to encourage the reporting of incidents when they occur on College-owned, managed, or leased property. The College has the “**See Something, Say Something**” campaign for its students, faculty, and staff providing information through brochures, wallet cards, and by email. This information is also contained in the ***Fact Finder***, the Student Handbook, which is available in hard copy and online on the College’s website.

PROCEDURES FOR SECURITY AND ACCESS TO COLLEGE FACILITIES

The College has attempted to balance the need for convenience and accessibility to its facilities with that of adequate security. To that end, most College facilities should generally be accessible to all students, employees and visitors during normal business hours. After normal business hours, access to College facilities may be restricted to students, employees and selected visitors. Such persons shall be required to produce valid and appropriate identification and a statement of purpose for needing access to College owned or leased property. Entrances and exits to buildings at some locations are monitored by electronic alarm, and since May, 2013, an additional 200 cameras have been placed around various campus locations to improve monitoring of activity and documenting evidence for investigation of reported incidents.

CAMPUS POLICE OFFICERS AUTHORITY

The College Campus Police Departments require their officers to be certified to conduct arrests and investigations of crimes that occur on the campuses or College-leased or managed property. This certification by the Director of the Missouri Department of Public Safety empowers the Campus Police with the same authority to maintain order, preserve peace, and make arrests as is held by other certified law enforcement officers in the State. Incidents involving violation(s) of College rules and regulations and/or other inappropriate behavior are referred to the appropriate Behavioral Intervention Team and or the Vice-President of Student Affairs for further consideration. Incidents involving possible criminal activity are investigated and reported to the appropriate prosecuting authority for criminal prosecution. The Campus Police have a long history of working together with local law enforcement agencies on matters that occur on College property or at locations near College property and/or activities, although there is no formal Memorandum of Understanding setting out these long-standing relationships.

The College does not have any student organizations, such as fraternities housed off-campus, so the College does not regularly monitor off-campus activity. However, when situations arise off-campus such that the Campus Police are notified, either by citizens or law enforcement officials, the Campus Police will monitor such activity to ensure the safety of the students, faculty and staff on the campus until the matter has been resolved by local law enforcement.

INFORMATION ABOUT STUDENT SAFETY AND CRIME PREVENTION PROGRAMS

During orientation at the beginning of each academic year, students are provided safety and security information about their campus, such as information about how to contact the Campus Police, where the police are located on the campus, and other emergency information. Students are also provided the opportunity at that time, if they have not already done so, to sign up for text messaging alerts to their cell phones.

Information for signing up for this service is also available on the College's website. Additionally, information about security and safety are provided on the College's website, both at the Campus Police webpage for each campus and at the Campus Services webpage under Student Resources and in the **Fact Finder**. The College provides crime prevention programming and information on a periodic basis, through email information updates or through certain programs, such as the self-defense classes offered to all students, faculty and staff.

POLICIES RELATED TO DRUGS, ALCOHOL AND TOBACCO

It is a violation of College policy to possess, distribute, sell, or consume alcoholic beverages or to manufacture, possess, control, sell, transmit, or use any controlled substance on STLCC campuses and any other College-controlled property. The College cooperates fully with local law enforcement and prosecuting officials when dealing with these situations. Such matters shall be addressed through the College's student discipline process, regardless of whether criminal charges are prosecuted in the court system.

The College also has a no tobacco policy for its campuses and other College owned and leased properties, in compliance with the local City and County ordinances. These violations are addressed through violation notices and fines on the campuses. When the College first introduced this policy, it also provided for educational programs to assist students, faculty and staff in understanding the risks of smoking and assistance in stopping smoking. In September, 2014, the College extended its smoking ban to include the use of illegal substances and all forms of electronic smoking devices.

The College provides information on drug and alcohol abuse education on its website and provides a link to that location in the **Fact Finder**. This information includes phone numbers to contact counseling services on the campuses, and information to contact the local office of the National Council on Alcoholism and Drug Abuse.

SEXUAL ASSAULT PROGRAMS AND PROCEDURES

Students at STLCC are educated on issues related to sexual harassment and sexual violence at orientation at the beginning of the Fall term. Information is also available through the Vice-President or Director of Student Affairs. Additionally, students are required to take the College's online **Sexual Harassment/Sexual Violence Tutorial**, which contains the College's Policy on Sexual Misconduct. The **Guidelines for Investigation and Determination of Complaints Involving Sexual Misconduct** are found on the College's website at https://www.stlcc.edu/apps/SH_Tutorial/index.asp?p=1040. This information is also included in the **Fact Finder**.

If a student is subjected to or witnesses sexual misconduct, he or she should contact a Sexual Misconduct Investigator. Information is posted at all College locations with the names and contact information for the Sexual Misconduct Investigators at all locations. Students are encouraged to contact the Sexual Misconduct Investigators as soon as possible to ensure the most complete investigation of the case. The student will be advised that he/she has the option of seeking criminal prosecution through the Campus Police, in addition to discipline by the College, or the student can just report the incident to the Sexual Misconduct Investigator for purposes of a sexual discrimination investigation. Should a student choose not to report the incident to law enforcement or campus authorities, the College strongly encourages speaking to a counselor on campus or elsewhere.

If a student contacts a Campus Police Officer first, the officer will take the information from the student and also arrange for a Sexual Misconduct Investigator to contact the victim. The student is also offered the opportunity to make contact with the sexual offense unit of the local law enforcement agency, if the appropriate agency has such a department. The student will also be offered information to contact a counselor on the campus where the incident occurred or, if at a location where there is no counseling office, a counseling office more convenient for the student. The student is also advised that he/she has the right to maintain the confidentiality of his/her complaint throughout the investigation process by the College. At this time, the Sexual Misconduct Investigator, working with the Title IX Coordinator and other relevant individuals, will address any reasonable and practicable changes necessary to allow the student to continue or complete his/her studies, such as changing the student's class schedule.

Both parties to a complaint of sexual misconduct will have the opportunity to appear before the Sexual Harassment/Sexual Violence Committee to tell what happened and present any witnesses on their behalf. Once the decision is issued by the Committee, both parties will be notified of the decision in writing and both parties will have the right to appeal the decision.

Upon written request, the College will disclose to the alleged victim of a crime of violence (as that term is defined in Section 16 of Title 18, U.S. Code), or of a non-forcible sex offense, the report on the results of any disciplinary proceeding conducted involving a student who is the alleged perpetrator of such crime or offense. If the alleged victim is deceased as a result of such crime or offense, the College will notify the next of kin, if so requested.

A link to the Missouri Sex Offender Registry is available on the webpage for each of the Campus Police departments. Under Missouri law, an individual who pleads guilty or is found guilty of certain defined sexual offenses shall register with the chief law enforcement official in the county in which he resides within three days of the finding of guilt, release from incarceration, or placement on probation. St. Louis Community College has

requested, pursuant to Section 589.400.2 of the Revised Missouri Statutes, that any such registrations be forwarded by the chief law enforcement official to the College.

Violence Against Women Act (VAWA) and CAMPUS SaVE Act

On March 7, 2013, President Obama signed a bill that strengthened and reauthorized the Violence Against Women Act (“**VAWA**”). Included in the bill was the Campus Sexual Violence Elimination Act (“**Campus SaVE**” Act), which amends the Jeanne Clery Act (“**Clery Act**”), and requires colleges and universities to:

- report domestic violence, dating violence, and stalking, in addition to the crime categories required to be reported under the Clery Act;
- adopt certain student discipline procedures, such as notifying purported victims of their rights; and
- adopt certain institutional policies to address and prevent campus sexual violence.

The Campus SaVE Act employs the following definitions:

- **Domestic Violence** includes asserted violent misdemeanor and felony offenses committed by a person’s current or former spouse, current or former cohabitant; a person similarly situated under domestic or family violence law; or anyone else protected under domestic or family violence law.
- **Dating Violence** means violence by a person who has been in a romantic or intimate relationship with another person. Whether there was such a relationship will be gauged by its length, type and frequency of interaction.
- **Sexual Assault** means forcible or non-forcible sexual offenses under the Uniform Crime Reporting System of the Federal Bureau of Investigation.
- **Stalking** means a course of conduct directed at a specific person that would cause a reasonable person to fear for her, his or others’ safety, or to suffer substantial emotional distress.

VAWA now prescribes standards for investigation and conduct of student discipline proceedings in domestic violence, sexual assault, and stalking cases, and mandates that new students and employees be offered primary prevention and awareness programs that promote awareness of rape, acquaintance rape, domestic violence, dating violence, sexual assault, and stalking. The SaVE Act also adds “national origin” and “gender identity” to the hate crime categories required to be reported by colleges and universities under the Clery Act,” which includes offenses involving the selection of a victim based on actual or perceived characteristics.

While final regulations for implementing these new provisions will not be available from the Department of Education until November, 2014, know that St. Louis Community College prohibits domestic violence, dating

violence, sexual assault, stalking, sexual harassment, and any behavior of this nature. Furthermore, STLCC has broadened its existing policies and procedures to address VAWA requirements inclusive of these categories. Relevant college officials are already querying requisite sources for reported incidences of this type to be included in this and future publications of STLCC's Annual Safety Report.

Required training on preventing and identifying sexual misconduct, the Mental Health First Aid training program, and other student/campus awareness and prevention programs are being expanded in their scope to address signs of abusive/inappropriate behavior and how to avoid being a target. Programs like "**See Something, Say Something**," STLCC's bystander training program, are being expanded as well to include suggestions on how to intervene in these circumstances to prevent harm and make a positive difference.

Any member of the campus community believing he or she has been subjected to or witnessed domestic violence, dating violence, stalking or any other type of sexual violence or harassment may report the incident as soon as possible to Campus Police or a trained, college-designated investigator. A list of Investigators is posted at each campus, the Cosand Center, each education center, and at the Corporate College. This list of Investigators can also be found in the sexual harassment/sexual violence brochure, and/or on the on-line Sexual Harassment/Sexual Violence Prevention Tutorial. Hearing and disciplinary proceedings utilize a preponderance of evidence standard in reaching conclusions and applying sanctions. More information concerning this process can be found in the [Guidelines for Investigation and Determination of Complaints Involving Sexual Misconduct](#).
