Accommodations Statement

St. Louis Community College makes every reasonable effort to accommodate individuals with disabilities. If you have accommodation needs, please contact the Access office at any STLCC campus or visit us at www.stlcc.edu/Access.

Non-discrimination Statement

St. Louis Community College is committed to non-discrimination and equal opportunities in its admissions, educational programs, activities and employment regardless of race, color, creed, religion, sex, sexual orientation, national origin, ancestry, age, disability, genetic information or status as a disabled or Vietnam-era veteran and shall take action necessary to ensure non-discrimination.

Maximize your Potential

The Honors program provides highly motivated students with flexible options for making the most of the rich educational experiences offered at St. Louis Community College. Through selected honors courses, individualized projects and assignments, and special advising opportunities, students are encouraged to explore their academic interests and expand their intellectual horizons.

Stand out from the Crowd

Honors scholars are recognized for what they are: engaged, driven and successful students. Both future employers – as well as four-year institutions – value the added rigor of an Honors program. Not only will your resume or application stand out, but your honors status may make you eligible for STLCC scholarships and awards as well as lucrative transfer scholarships.

Become an Honors Student

Enrollment in the Honors program is open to all students who meet just one of several basic requirements. All students with a cumulative GPA of 3.5 on a 4.0 scale from high school or college (12 credit hours of 100-level classes) are eligible. Alternatively, students may choose to submit ACT/SAT scores or Accuplacer assessment results to indicate eligibility. Test result requirements vary by campus and may be found at www.stlcc.edu/honors_program. Alternative evidence of eligibility may be considered as well.

Flexible Options to Meet your Needs

Each STLCC campus offers a unique array of opportunities to earn Honors credit. Depending on the campus, you may choose:

- **Honors Courses:** Honors sections of standard classes offer a more challenging curriculum and allow you to learn alongside students who share your interests and goals. Honors courses have fewer students and are taught by highly qualified faculty. Honors courses vary by campus and semester.
- **In-Course Honors Contracts:** Honors students are encouraged to pursue additional coursework and independent projects as part of standard classes. This option provides an opportunity for in-depth study of specific areas of interest. Honors contracts are developed and implemented with the approval of the course instructor.
- **Honors Projects:** Students may choose to undertake independent study projects outside of the classroom. Depending on the campus, projects may include a wide variety of options such as internships, writing workshops, service learning and independent research.
