Grade Point Average (GPA): A student's grade point average is calculated by dividing the sum of earned quality points by the sum of attempted hours for all courses receiving a grade used in the calculating the GPA (see above). Only work taken at STLCC is used in the GPA.

Repeated Courses: The grade earned in the most recent repeated course is used in the grade point average calculation.

Withdrawal and Grade Point Average Recalculation: All attempted coursework appears on the transcript, except those for which a full refund has been issued. If all requirements are not met, a grade of Incomplete becomes an F after one calendar year. Students may withdraw from a course up until the 12th week of the regular semester or corresponding times during other terms. Following an absence from the college of 10 calendar years, a student may appeal for a recalculation of grade point average with academic forgiveness. All grades below C will be removed from the calculation of the grade point average. A student may petition for a program change with a grade point average recalculation only one time. All coursework not pertaining to the new program will be removed from the calculation of the grade point average.

Transfer Credit: Accepted transfer credits are included in cumulative hours, but are not calculated in the grade point average.

TR	Transfer Credit accepted with grades A, B, C.
TD	Transfer Credit accepted with grade of D.
