They must successfully complete the whole program in order to be considered for employment within Boeing. **Information hotline:** 314-539-5921

Environmental & Green

Environmental Remediation Technician
EPA Brownfield Job Training Program
The program offers residents of brownfields-impacted communities an opportunity to participate in an intensive six-week training program. Participants who qualify receive technical training in environmental issues, including lead abatement, site remediation and weatherization. The training is supported by the American Recovery and Reinvestment Act of 2009 (ARRA) and administered through the Environmental Protection Agency (EPA). The courses allow participants to apply for state licensing in both Missouri and Illinois as lead and asbestos abatement workers. Coursework in weatherization and ecosystem restoration is also included to ensure participants are able to tap into the emerging “green jobs” market. **Length:** 6 weeks  **Cost:** No cost to qualifying participants.  **For more information** contact Tim Boul at 314-679-3341

Workforce & Community Development
Accelerated Job Training Programs
