

A Family Eco-Festival

at St. Louis Community College-Wildwood

2645 Generations Drive, Wildwood, MO 63040

1.2.3. Green!

SATURDAY, OCTOBER 16, 2010

11am-3pm

Document Shredding

Watch as your personal documents and files are shredded securely. No need to take off staples or paper clips. Limit of 5 boxes or garbage bags per car. Cardboard cannot be shredded. Provided by Cintas Document Management.

**Important Note:
NO electronics recycling.**

Drop-in Green Workshops

Get quick tips for living a greener life from experts in the field. Drop-in sessions will run every half hour beginning at 11:15 a.m. and will run for fifteen minutes. See schedule and topics at right.

Green Shop

Shop to your heart's content, knowing that what you buy is recycled, comes from a sustainable resource, is non-toxic, or otherwise benefits the environment. Jewelry, textiles, reusable shopping bags, cleaning products, crafts, organic tea and more.

Information Booths

Visit informally with experts from companies and organizations with a penchant for living green. Learn about green homebuilding and interior design, green cleaning, solar energy, home energy audits, water conservation, alternative transportation, health and wellness, and outdoor activities such as geocaching, birding and sustainable gardening.

Family Activities

Students from STLCC's Education program, in partnership with The Magic House will be on hand to lead families in fun, hands-on activities that help kids learn about caring for our planet, including recycling, conservation and environmental clean up. It's green fun for everyone!

Enjoy the Great Outdoors

The Wildwood campus is home to a walking trail and a native prairie. In 2009 the Wildwood Environmental Club created a guide identifying the native trees on the trail. In conjunction with St. Louis Community College Foundation, the club will debut a new project on campus during the event: identification of native plants on the campus grounds. Visitors to the event are invited to walk around the campus and the trail to see native plants in a natural environment.

11:15 am ~ "Health & Wellness"

Dr. Nick Barnes, Chiropractor, 212° of Wellness

11:45 am ~ "Clean Kids are Green Kids: Taming the Toy-Littered Terrain"
