

Performance Dashboard

About the Performance Dashboard

The Performance Dashboard tool provides a window into all types of user activity in a Course or Organization. All users enrolled in the Course are listed, with pertinent information about that user's progress and activity in the Course.

Enable the Performance Dashboard

If the System Administrator has made this tool available, it may be accessed by selecting Performance Dashboard under Assessments on the Control Panel.

View the Performance Dashboard

Administrators must enable the Performance Dashboard for it to appear in Courses. If enabled by the Administrator, the Performance Dashboard will be on by default in all Courses. The Performance Dashboard is accessed through the Assessment area of the Control Panel. This page displays the following information

- Last Name
- First Name
- Username
- Role
- Date / time of last login
- Days since last login
- Review Status - Only displayed if this tool is enabled. Displays how many items have been reviewed; a detailed view of items may be opened in a new window.
- Early Warning - Shows the number of warnings and the number of total rules that may trigger a warning. Clicking on the data in this column will open the Early Warning System. The Early Warning System column will only display if the tool is turned on in the Course.
- Adaptive Release - Only displayed if this tool is enabled. An overview of the Student path may be opened in a new window.
- Discussion Board - Only displayed if this tool is enabled. Provides links to the Discussion Board comments.
- View Grades - Only displayed if the Grade Center is enabled. Provides links to the Grade Center: User Grade List page for that user.

Users can click Print to open the page in a new window in a printer-friendly format. All applicable columns may be sorted.

Understanding the Review Status indicator

The numbers provided in the Review Status column of the Performance Dashboard indicate the number of items that the Student has marked as Reviewed.

Using Adaptive Release rules in a Course creates multiple tracks for Students to progress through. This allows for the possibility that each Student will have a different requirement for marking certain items in a Course as Reviewed. At any time in a Course, items in a Student's track may or may not be visible to them. The Performance Dashboard provides an at-this-moment view of the item availability and the Student's progress on reviewing items.

The Review Status indicator links to a list of the items that the Course user sees as Reviewed and Mark Reviewed in the Course.

The Review Status column is only visible if Review Status has been enabled for the Course.

Link to Adaptive Release

The Adaptive Release indicator in the Performance Dashboard for each user opens the Course Map, showing every possible item in the Course. Icons beside each item in the Course Map indicate the visibility of an item to that Course user, and the review status of any items with a review requirement, if applicable.

Adaptive Release and Review Status icons:	
<input type="checkbox"/>	Visible – this item is visible to that Course user.
<input type="checkbox"/>	Invisible – this item is not visible to that Course user.
<input type="checkbox"/>	Reviewed – this item has been marked as Reviewed by the Course user.
<input type="checkbox"/>	Mark Reviewed – this item is displayed as Mark Reviewed to the Course user.

The Adaptive Release column is only visible if Adaptive Release has been enabled for the Course.
