I authorize St. Louis Community College to apply Title IV funds (Federal Pell grant, SEOG and/or Direct Loan program funds) to current and prior semester non-institutional charges on my student account. Non-institutional charges may include, but are not necessarily limited to, bookstore purchases, parking fines and library fines.

I understand that if I choose not to give authorization, I may receive a Title IV refund check and still owe money to St. Louis Community College. If this occurs, my student account may be placed on hold, which will prevent future registration and the release of transcripts and diplomas until my balance is paid in full.

I understand that this authorization will remain in effect for the entire period of my enrollment at St. Louis Community College. I understand that I can cancel my authorization by notifying the Financial Aid office in writing at any time, and that cancellation will take effect on the date that written notice is received.
