- Demonstrate safe practices while caring for patients.
- Apply generic healthcare knowledge.
- Demonstrate workplace behavior skills.
- Perform basic respiratory skills.
- Perform the basic clerical skills required of unlicensed assistive personnel working in an acute care setting.

Clinical and Field Work:

Some degree and certificate programs offered by St. Louis Community College require students to obtain clinical or other field experience as part of their course work. Hospitals and facilities may mandate that a criminal background check and/or drug screening check be conducted prior to placement in a clinical or field setting and as part of an employer's screening process. Students not passing these checks may be prohibited from participating in the clinical or field experience thus rendering the student ineligible to satisfactorily meet the course/program requirements, and/or ineligible for hire.

Refund Policy:

A partial refund will be given if notification of withdrawal is received in writing at least three (3) business days prior to the first class. Withdrawals after this time are not eligible for refund. Partial refund amount is equal to the total program cost, minus the cost of fees, supplies and textbook. The refund amount for the Patient Care Technician Training program is \$2,700.
